Job description

The School of Psychology at Beijing Normal University (<http://psych.bnu.edu.cn>) is a leading psychology institution in China. It has collaboration and partnership with leading psychology institutions worldwide and major government agencies in China. The School provides world-leading research and teaching facilities. Currently the School has 50 full-time faculty members, and it offers undergraduate, MSC, MAP and Ph.D. programs, with current enrollment of over 1,000 students.

The School of Psychology conducts a worldwide recruiting campaign to strengthen its research capability. We are seeking outstanding applicants for research appointments in the fields of cognitive psychology, psychological measurement, developmental psychology, educational psychology, social psychology, health psychology and organizational behavior. The School offers outstanding research support.

Applicants for Postdoctoral Researcher positions should have a Ph.D. degree in relevant field and strong research potentials. Applicants for Research Fellow positions must also have excellent established records of research and scholarship. Successful candidates are expected to seek research funds and to disseminate research findings through journal articles that enhance knowledge and build the reputation of the University.

Applicants should submit a detailed curriculum vitae, a summary of current research and a summary of proposed research plan, and should arrange two reference letters to be sent to the following address:
